PROFILE

Software Engineering student at Sheffield Hallam University seeking a placement year to apply and develop skills in building full-stack web applications. Experienced using C#, ASP.NET Core Web API, React, JavaScript, Python, Flask, and SQL databases through individual and group web projects. Collaborative, strong attention to detail, time management, responsibility, enthusiastic learner, and experienced in customer-facing roles.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, Python, SQL
- **Frameworks & Web Technologies:** ASP.NET Core Web API, React, Flask, HTML, CSS
- **Databases:** MySQL, SQLite
- **Others:** REST APIs, CRUD operations, Git/GitHub

PROJECTS

E-Commerce System | C#, ASP.NET Core Web API, HTML, CSS, JavaScript

- Implemented CRUD for users, products, carts, and orders, along with role-based access control, email verification, and Google sign-in.

Messaging Website | React, C#, ASP.NET Core Web API

- Built a full-stack messaging application with friend connections, group chats, real-time messaging, message reactions, and file attachments.
- Implemented user authentication and authorization, email verification, and Google sign-in.

Hospital Management System | Python, Flask, HTML, CSS, JavaScript, MySQL

- Developed a role-based hospital management system for doctors, nurses, and patients with database integration for medical history, diagnosis, and appointment management.

Real Estate Management System | C#, ASP.NET Core Web API, HTML, CSS, JavaScript

- Contributed to a university group project, taking part in both frontend and backend functionality for CRUD operations of properties and tenancy management.

EDUCATION

Sheffield Hallam University | Sheffield, UK

BEng (Hons) Software Engineering **| 2025-2029**

EXPERIENCE

International Student Ambassador | Sheffield Hallam University Sep 2026 – Present

- Welcomed international and home students and assisted with their university-related enquiries about enrolment and events.
- Led and ran the social events with peer student ambassadors

Operator | Printec H.T Electronics CORP., New Taipei, Taiwan Nov 2024 – Aug 2025

- Manufactured, packaged, and inspected electronic products, including medical-related devices by following quality standards and strict manufacturing guidelines.
- Worked both independently and in groups.

VOLUNTEERING

Retail Assistant (Volunteer) | Barnardo’s Sheffield Oct 2025 – Feb 2026

- Managed daily store tasks such as cleaning and arranging merchandise, processed cash, and electronic payments, and provided customer support.
